**NOTES FOR EDITORS:**

**About Chariot**

Chariot is an African focussed transitional energy group with three business streams, Transitional Gas and Transitional Power and Green Hydrogen.

Chariot Transitional Gas is a high value, low risk gas development project offshore Morocco with strong ESG credentials in a fast-growing emerging economy with a clear route to early monetisation, delivery of free cashflow and material exploration upside.

Chariot Transitional Power is looking to transform the energy market in Southern Africa, providing a giant largely untapped market with cleaner, sustainable, and more reliable power.

Chariot Green Hydrogen is partnering with Total Eren and the Government of Mauritania on the potential development of a 10GW green hydrogen project, Project Nour. Further large-scale green hydrogen opportunities are also being evaluated.

The ordinary shares of Chariot Limited are admitted to trading on the AIM under the symbol 'CHAR'.
